

# GAS GIANT THUNDER KETTLE 60 OZ WITH POWER DUMP

## GAS GIANT – PEDESTAL-STYLE KETTLE

**ANOTHER INDUSTRY FIRST FROM CRETORS!** This high performance GT kettle with power dump has a unique infrared burner that is energy efficient, environmentally friendly and offers faster kettle heating cycles.

### IMPROVEMENTS

- Power Dump system reduces labor costs
- Attached green beacon light signals dump action as the kettle dumps
- Wear and tear on parts reduced
- Remote control switch can be mounted on table for easy operation
- BTUs are reduced up to 30% from standard burner
- Fuel usage is reduced up to 30% from standard burner
- Electronic ignition automatically lights when temperature controller calls for heat
- No standing pilot light to blow out and use fuel
- Improved popping cycle
- Infrared flame is stronger and protected making it more wind resistant
- Better access to electrical parts (cabinet)
- Patent pending design

### STANDARD FEATURES

- Propane or natural gas
- Electric direct drive motor
- Requires small amount of electrical power (contact your Cretors representative for further details)
- Lighted rocker switches
- Easy-to-read controls
- Exhaust vent located on back of kettle
- Digital readout ensures accurate temperature settings and readings
- A safety off switch automatically turns off burner flame when the kettle is lifted for dumping. The flame automatically relights when the kettle is placed back into the cooking position
- Cycling pilot light with digital temperature controller
